

EUROPEAN POWERS ADVIS- ING CARRANZA TO AVOID BREAK WITH UNITED STATES

Reported Clash Between Carranzistas and United States Troops Near Namiqipa

Special to Daily Times.
Washington, June 21, (2:25 p. m.)—Indirect reports have reached the state department today that European powers are advising Carranza to avoid a break with the United States.

G. O. P. TRIBUTE TO WILSON

People Uphold President's Foreign Policy, Says Republican News- paper

Col. Roosevelt says President Wilson invites war by his timid policy, but there are many, very many people who think that he invites peace by his cautious and considerate policy. If these people were not in a majority we would probably have had a war long ago. The President is consulting the wishes of the people and he finds they are in perfect accord with his own views. It is fortunate we have that kind of President in these perilous times.

The ordinary issues of politics don't figure these days, and the paramount object is to keep the country out of war if it is possible to do so. Thus far the President has found it possible, and the universal prayer is that he will keep it up. When this country goes to war, it wants to do so for some real reason and not on frivolous and capricious grounds. This republic is too great to be touchy and boastful.—Columbus (O.) State Journal.

PRESIDENT'S WARNING TO CARRANZA FIRM REFUSAL TO WITHDRAW TROOPS

Answer Leaves Issues of War or Peace with Mexican Executive. Refugees Leaving Mexico

Washington, June 20.—The issue of war or peace with Mexico hung in the balance tonight awaiting General Carranza's decision as to the course he will pursue. Officials here believed that 48 hours might bring a clear understanding of what the immediate future has in store.

A note signed by Secretary Lansing conveying President Wilson's rejection of the demand for withdrawal of American soldiers from Mexico, accompanied by a specific warning that an attack on the troops will "lead to the gravest consequences," was telegraphed to Mexico City today by Eliseo Arredondo, Mexican ambassador designate. In plain terms it accuses General Carranza of having brought matters to the verge of war by open hostility toward the United States and failure to safeguard even the lives of Americans in Mexico or on the border from the lawless element among his countrymen.

In sternest terms the note repudiates and resents imputations of bad faith and ulterior motives brought against the Washington government in the Mexican communication to which it is a reply. General Carranza is informed in so many words that protection of its own border is the only object sought by the United States and is told that this object will be pursued, whatever the consequences may be.

When the note had been handed to Mr. Arredondo for delivery to his chief, copies were sent to all embassies and legations for their information. A summary was telegraphed to Special Agent Rodgers in Mexico City that he might wisely counsel American residents there. He will not communicate it to Carranza officials.

In military circles it is agreed that the American defense against the slightest Mexican aggression will be a swift and sharply executed offensive. The only way to protect the border will be to drive the Carranzistas away from it.

Indications which piled up today from various Mexican towns along the border point to the probability that the first dash of American regulars over the international boundary will meet with slight resistance.

Men, women and children in these centers are being ordered southward while merchants have been instructed to move their goods to interior points. There has been no preparation of trenches or other fortifications.

GROW HIGH-QUALITY APPLES

Quality commands price in all departments of trade. The higher the quality the greater is the price, regardless of the condition of the market. Recently the apple selling question has been becoming more difficult each year, and the past season has been the most unsatisfactory one to growers for many years.

During May there were practically twice as many apples in cold storage as for the same period the preceding year. Consequently, prices are low on apples of all grades.

On the larger markets, however, high-grade western box apples, packed according to known and established standards, are moving quite freely at prices ranging from \$1.75 to \$2.25 a box. The choicest middle west stock in barrels is moving very slowly at prices ranging from half to two-thirds that of western stock. There is almost no sale for the ordinary so-called "standard" or "orchard-run" pack of fruit, even at prices that yield no profit to the producer.

Begin now to raise the standard of the Missouri commercial apple—pack for 1916.—F. W. Fautrot, Missouri College of Agriculture.

FORGET HIM!

Roosevelt, unable to rule or ruin, now appears in the new role of sulker. Let him sulker.

Let him pursue his own course in his own way. He has tried to wreck the Republican party and now he deserts the Progressive ship and leaves her and the Parkers, Nortons and Wrights to their fate.

Forget the tennis cabinet president and his troubled hour!

The above is clipped from the Mt. Vernon Fountain and Journal, a Bull Moose paper, and expresses the feelings of many Progressives.
